

## CLOTHING PRICES

Will Not be Greatly Increased by Tariff on Wool—So says Local Merchant.

The prospect of present provisions of the Aldrich tariff bill with reference to woollen wares caused a good deal of speculative talk as to advances in the prices of men's clothing. A dispatch from New York printed in a Chicago paper recently even went so far as to state that some merchants were asking \$35 for suits which could have been bought a few weeks before for \$20. Jacksonville clothing men state that reports along this line have been grossly exaggerated and that the effect of the bill, so far as increasing the price of ready made clothing would be very slight. The manager of one of the best known of the clothing houses of Jacksonville in talking about the matter said yesterday:

"While the effect of the new tariff may be felt to some extent it will be hardly noticeable for the average customer. The matter of supply and demand should really be credited as cause of recent moderate advances rather than the tariff. Throughout the New England states many looms are idle for lack of yarns. When all are in operation there are only seventy per cent of the needed worsted spindles to provide the yarns for the looms of the country. The cry being made that sharp advances will be made on clothing is nonsense, however, for there are but three and a fourth yards of cloth in a man's suit and when the amount of the advance per yard is considered it will be recognized that the wearer of a suit will pay but little more. Another thing to be considered about the advances is that they would not effect clothing for this year, as the garments for this year's wear have long since been made up."

A few paragraphs bearing on the subject from a trade journal are given herewith:

"Owing to the activity of the wool dealers in the western states, it is estimated that as much as 66 per cent of the total clip of the United States has already passed out of the hands of the sheep raiser. In Montana, which produces more wool than any other state in the union, fully 30,000,000 pounds of the total production of 36,000,000 pounds are said to have been contracted for. Prices range from 19 to 24 cents, as against 14 to 18 cents last year.

"In Wyoming probably 18,000,000 pounds of a total clip of 35,000,000 pounds for that state have been purchased at from 18 to 23 cents. Last year prices ranged from 10 to 15

cents. In Nevada, both northern and southern Utah and eastern Idaho practically the entire clip has been deemed up. In western Idaho, California, Michigan and Ohio fully 50 per cent of the clip has been purchased. In other states less important in themselves, but in the aggregate accounting for a large part of the clip in the entire country, the same conditions are said to prevail.

"It will be a comforting thought to some who may be worrying over the clothing of the poor and needy to know that on low-priced goods the advance will hardly be noticed. This ought to please some of our tariff agitators who are so worried about the high duties on the clothing worn by the poor. It is these latter that must go up, and they are worn by those who can well afford it. A dollar or two makes very little difference to those who wear stylish clothing, and there will be \$12, \$15 and \$20 suits enough for all, and plenty of strong, durable, well-made clothing at the lower prices for those who can afford to pay but little. In fact, the continued demand for stylish clothing of the better quality is largely responsible for the advance in wool. Never was there so much good clothing sold in proportion to the whole, and as the country moves on toward the greater prosperity that seems to be before it those who can afford to pay for a better class of clothing will increase in number, and the small advance that now seems so great, but that is merely restoring a normal basis of values, will be forgotten, and the cry will again be for prompt, early delivery, without a question price."

Grand Opera House, matinee today. Feature Albu musters and servant. Dot Baker sings Smiling Star and Blue Eyes.

## MONEY FOR NEW CHURCH.

The Young Ladies Home and Foreign Missionary band of Jordan Street church met with Miss Leanne Melrose Monday evening at her home on West Court street.

The meeting was held for the purpose of counting the "feet of pennies" for which the members of the band have been working for the past two months. \$157.49 was realized, and a number of feet are still out and were not counted at the meeting. The money is to go toward the building fund for the new church.

After the business meeting refreshments were served and a social hour was enjoyed.

## GAVE SOCIAL DANCE.

The K. of C. social club gave a dance at Nichols park Tuesday evening with a large number of couples present. Music was furnished by Osborne-Drake orchestra.

## UNDERWEAR OPERATION.

Wife of Evangelist Sunday Ill in Minnesota.

Word has been received by friends from Rev. William Sunday at Rochester, Minn., that he is there with Mrs. Sunday, who yesterday underwent a serious operation at the sanatorium of Dr. W. J. Mayo, the well known specialist. The extent of her illness is not known.

## COUPLE ELUDED FRIENDS.

Mr. and Mrs. Charles Crandall left the city yesterday morning for their home in Springfield. The newly weds successfully avoided their friends last night, after the ceremony. A crowd gathered at the depot to see them off and to send them on their way in the usual manner, after waiting for some time. The company of friends decided that the couple had left in an automobile or in some other manner. They then returned to their homes with their plans unaccompanied. Instead of leaving the city, Mr. Crandall and his wife went quietly to the home of the groom's father on Hardin avenue and remained there for the night unmolested. It is needless to say that many were surprised when they appeared at the Wabash yesterday morning to take the train for Springfield.

Rebecca lodge No. 13 social Thursday evening at J. M. Mitchell's, 514 Brooklyn avenue.

## PLEASANTLY SURPRISED.

Miss Hazel Mapes of North Diamond street was very pleasantly surprised Monday evening by a number of her friends, who remembered that it was the young lady's nineteenth birthday and came in to pass the evening with her in celebration of that event. Games and music were the features of entertainment and all present had a very pleasant time. Delightful refreshments were served. During the day Miss Mapes received a large number of post cards from her friends.

## FUNERAL NOTICES.

The funeral services of Mr. John T. Anderson will be held this afternoon at 4 o'clock in the Central Christian church and will be in charge of Rev. Mr. Miller of Woodson.

The funeral of Mr. F. G. Dodge will be held at the residence, 357 East College avenue, Thursday morning at 10 o'clock.

## CLOSE OF RUG CONTEST.

Friday, July 2, '09, from 2 o'clock to 4 o'clock p. m. is our visitors' afternoon, at which time we will give away \$50 worth of rugs. Everybody welcome. Bring your coupons. Moore Rug Co., 871 N. Main street.

## RECOMMENDS FLIRTING.

Harvard Professor Says the Custom Has Its Benefits.

Boston, Mass., June 28.—Prof. George Herbert Palmer of Harvard, twice married and reported to be contemplating a third venture in matrimony, has come forth with these pronouncements that a little flirting, properly conducted, of course, is not only advisable, but imperative for the average college boy or girl.

Flirting is the surest road toward the proper knowledge of social life, declares the professor, who has the distinction of being the oldest member of the Harvard faculty and whose second wife, Olive Freeman Palmer was president of Wellesley College from 1881 to 1887.

"I think the girls of Radcliffe and the boys of Harvard devote too much of their time to study," says Prof. Palmer. "They should mingle a little frivolity with their studies; in other words, they should flirt a little."

"If all could see the tired out boys and girls that I see all would, I know admit that a little bit of flirting now and then is a real recreation."

## LICENSED TO MARRY.

W. L. Grassly, Jacksonville; Clara Piepenbring, Jacksonville.

## A FAIR PROPOSITION.

Simplicity in Favor. Jacksonville, Ill., May 23, 1909. Dr. C. C. Patchen: Accept my thanks for curing me of rupture. The simplicity of your treatment and the plan of no pay until cured is greatly in its favor.

No one could ask for a fairer proposition. O. I. Milburn.

## EXPERIENCE SATISFACTORY.

Has Been One Year. Bluffs, Ill., May 26, 1909. Dr. C. C. Patchen: My experience with you in regard to the cure of rupture is satisfactory. I consider myself completely cured. It has been one year since taking treatment. J. O. Burbank.

## THANKFUL FOR BENEFIT.

Perfectly Satisfied. Meredosla, Ill., March 13, 1909. Dr. C. C. Patchen: Will say that I am cured of rupture and am perfectly satisfied. Thanking you for the good you have done me, I remain, Yours truly, Mrs. Louise Schmidt.

## YOU PAY WHEN CURED.

Private consultation and examination free. Write for free booklet. Office hours: 9 to 12 and 1 to 4, Fridays and Saturdays only.

DR. C. C. PATCHEN. Office and residence, 300 1/2 South Main street, Jacksonville, Ill.

## BOOST SUNDAY SCHOOL WORK.

Local Workers Visit Woodson Church in Interest of Work.

A number of men from this city went to Woodson Monday night in the interests of a Men's Bible class, which they are endeavoring to organize at the Christian church at that place. The men were all members of the Adult Bible class of the Central Christian church and when they arrived they found that the ladies at the church had invited the men of the community to enjoy an excellent supper, the chief feature of which was fried chicken, the first of the season. Forty men or more were present and the visitors made good use of the opportunity to emphasize the importance of the adult work in the Sunday school. Several of them made brief addresses and next Sunday a Men's Bible class will be organized in the Woodson Christian Sunday school. Those who went from here to give the good work a boost were J. R. Watt, Dr. C. C. Patchen, George Hamer, B. F. Ferguson and J. T. Osborne.

Hollister's Rocky Mountain Tea should be a toilet necessity of every lady of social prominence. Makes bright happy dispositions, perfect complexion. The greatest blood and skin remedy. 35 cents. Tea or Tablets.

**NOTICE.**  
According to agreement the dentists of Jacksonville, Ill., will close their offices Mondays from July 1 until Sept. 15, 1909.

**CLERKS ENJOY PICNIC.**

The young lady clerks of Herman's ready-to-wear store held a picnic last evening at Nichol's park, which all enjoyed to the extreme. When the young ladies left the square they were loaded for a good time, carrying with them well filled lunch boxes and wearing on their faces the signs of their pleasant anticipations. At the park supper was the first thing scheduled and proved to be a very important as well as interesting feature. Following this, rowing was enjoyed by some and others viewed the moving pictures.

**LAST DAY OF LUTHERAN SCHOOL.**

Tuesday was the last day of school at the German Lutheran Parochial school until September and the children were busy getting ready for the picnic to be given at Maple Grove school today by the church. Gun drills, flag drills, parol drills and various games will be on the program and refreshments will be served. The public is cordially invited.

Matinee today at the Grand. Dot Baker sings Smiling Star and Blue Eyes. Feature film master and servant.

**CIRCUIT COURT.**

Judge Creighton was busy all day Tuesday with the suit of Priest against Dodsworth. Few witnesses have been examined and the case will be resumed this morning. The only order entered by the judge during the day was the following: J. T. Brown vs. T. W. Murphy, assumpsit; defendant called and makes default. Clerk assesses damages \$62.75. Judgment.

**FORLADIES**

**VOCAL INSTRUCTION.**

A limited number of vocal students taken for the summer. For terms, address Wm. P. Phillips, 1235 West College ave., or phone Bell 881.

**TURN VIA CHICAGO & ALTON.**

Long limit, liberal stop overs, various routes. If you are contemplating a trip to the exposition or any place on the Pacific coast it will pay you to figure with us. Full information as to rates and routes cheerfully furnished on request.  
D. C. Diltz,  
Ticket Agent.

**SPECIAL RATES JULY 4TH.**

The Chicago, Peoria & St. Louis railway will sell excursion tickets between all stations on its lines with a minimum rate of 50c on July 3rd, 4th and 5th, good returning July 6th. Call at C. P. & St. L. office and arrange for an outing.  
S. B. Wade, agent.

**YOU OUGHT TO BE CURED**

of rupture, because they usually get larger and larger. Small ruptures are dangerous because they become strangulated. We keep a supply of trusses on hand for incurable cases and those that do not take treatment. These trusses are guaranteed to retain the rupture, are fitted free of charge and cost no more than any other good truss. They frequently cure children. Adults are also cured by them sometimes.

PILES are thought to be hardly worth paying attention to—only a little bothersome—and yet their presence are known to cause gangrene, sloughing, abscesses, ulcers, loss of blood, anemia and possibly cancer by keeping the parts constantly irritated.

A very attractive special this week is a regular 75c pongee silk, 27 inches in width and reduced to .59c

You can shop at Frank's store these hot days in perfect comfort—in the delightful breezes of numerous electric fans

## The Most Important Silk Sale This Season

### Satin Faced Messalines, 12 yd. Patterns, \$9.50

When you consider the high standard of the silks shown at Frank's you will at once recognize this as a bargain of unusual merit. Messalines have been given a very decided preference this season and style authorities state this popularity will steadily increase. ## Best Standard Binder Twine

### 9 cents a pound

In order that every farmer may become better acquainted with this store and our superior lines of merchandise, we are offering full pounds of the best standard binder twine at 9 cents. Every pound is full weight of even, strong fibered twine. You should take advantage of this opportunity to stock yourself with a full supply of binder twine; for it is the best grade and would cost you more if you went elsewhere to buy it. This is a splendid chance for you to save money and to run your profits a little higher on your already good prospects for a profitable harvest.

### Gallon of Machine Oil Free

As an extra inducement, we are offering a gallon of machine oil free with every hundred pounds of binder twine. It is good machine oil, too. We want you to become a constant caller and to become attached to our goods—as you surely will if you use them once. You can't any place, get more courteous treatment; a better variety to choose from; or better values at such low prices, than you can here. We prefer to sell our goods at a low margin of profit; thereby, selling more goods and keeping our clerks busy. We invite your patronage.

# BLACK'S HARDWARE STORE, E. Side Sq.

# Take a Lesson

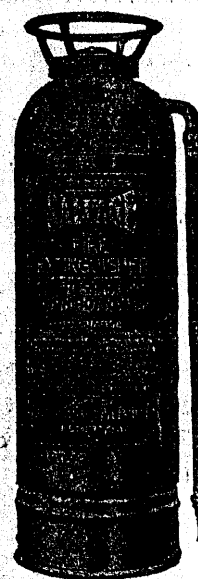

in music by listening to the exquisite tone of a BALDWIN PIANO. It is an education in music for those who know what high class instrumental music means. We are showing a beautiful assortment of this fine piano in a variety of cases, which we hold for your critical inspection.

## ADDITION TO PARK PROPOSED

WOULD ADD TO BEAUTY OF RESORT AND INCREASE WATER SUPPLY.

Plan Under Consideration Contemplates Addition to the Park, Extending West to Main Street Road—Lake Extension and Boulevards Included—Estimated Cost \$21,000—Matter to be Presented to City Council in Detail.

A proposition will soon be brought to the attention of the city council, which has the two fold purpose of increasing the water supply for the city of Jacksonville and of greatly adding to the attractiveness of Nichols park. For a week or more Bernard Gause and other members of the Nichols park commission have been considering the plan in connection with Ald. Brown, chairman of the water committee of the city council, Ald. Gochel, chairman of the finance committee, Mayor Bancroft and Charles W. Brown, civil engineer. Enough has been done to warrant the statement that before many days are past a definite plan will be presented to the city council for their consideration. This plan will outline how it will be possible at an estimated expense of about \$21,000 for the city to increase the storage capacity at the lake by 48,000,000 gallons and provide an entrance to Nichols park from South Main street road through land owned or held under option by Messrs. Jones & Bulte. Main Street Entrance Proposed.

At various times in the past an entrance to the lake property from South Main street has been talked of, but no definite steps for securing

the same were ever taken. There were always difficulties in the way partially due to the fact that three or four different people have always owned the land which it would be necessary to traverse. Under present conditions Messrs. Jones & Bulte own the land for half the distance of the proposed entrance and hold a thirty day option for the remainder of the distance.

### The General Plan.

The plan in general is about as follows: Messrs. Jones & Bulte own a little more than 78 acres of land adjoining Nichols park on the west being separated from the park by the Chicago & Alton right of way. To the west of the Jones & Bulte holdings and fronting on the South Main street road, Mr. Clement owns 24 acres of land on which Jones & Bulte have an option of thirty days at \$200 per acre. These gentlemen were interviewed by members of the park commission and agreed after some consideration to give to the park commission a strip of ground through their land four hundred feet wide extending from the present park holdings at the point where the C. & A. crosses an arm of the lake, west to the Clements land, on condition that the city will purchase the strip of 400 feet in width through the Clement land. This strip would take about ten acres and would cost the city about \$2,000 the price called for by the option. Within the 400 foot strip described it is proposed to dredge a basin 200 feet in width, ten feet deep, extending west from the western arm of the lake to within 500 feet of the South Main street road. This width would permit of 100 feet on either side being reserved for landscaping. Jones & Bulte would own the acreage fronting on the four hundred foot strip and they would feel repaid for the land donated to the city from the fact of this frontage. Their land at present fronts only on the Vandavia road and it is therefore possible for them to sell lots only on that road. If the present plan were carried out they would have lots facing the new entrance to the park in addition to the Vandavia road frontage. These fronts too would be very desirable facing as they would the park boulevards and the addition to the lake.

### Engineer Working on Estimate.

Charles W. Brown has been engaged by the park commission to run levels to show the depth of excavations necessary to make a level bottom in the proposed addition, from the depth of the present lake at spillway to the proposed terminus near the South Main street road. The purpose of the level bottom of course would be to keep pressure off the dam at the north end of the lake. Mr. Brown has all the levels in his office showing the water shed for all the country around the vicinity of the lake. He has not gone into the present problem fully, but is understood to have expressed the opinion that this is the only practicable dredging proposition that has yet been brought forward.

### Would Increase Water Storage.

According to Mr. Brown's figures the present storage capacity of the lake is 32,000,000 gallons and the added capacity of the proposed addition would be 48,000,000 gallons. It is estimated too that if it were desirable that dredging could also be done in the lagoons near the band stand which would increase the total storage capacity to 100,000,000 gallons enough to supply the city of Jacksonville for five months on the basis of the present average monthly consumption by the city.

### Dredging Best Method.

The proper method of making the excavations would be with a cable-way dredge, although a good deal of the dirt could be removed by the simple means of teams and scrapers. The estimate is that the work would require the removal of 200,000 yards of dirt and that this could be done at a cost of 8 cents per yard with the aid of the dredge. The dredge boat would cost \$5,000 and the Clements land \$3,000, making the total cost of \$21,000. The idea the commissioners have in mind in presenting the plan is to enlarge and beautify the park, provide suitable entrance from the main traveled road, one devoid of the dangers from the railroad and also to help in the solution of the city's water supply. It is suggested that it will not be necessary to expend all of this sum of money at once, that the work can be commenced this year and then spread through a number of years as the condition of finances will permit. It is argued that if a start is made that the work can be pushed forward from year to year without embarrassment and that eventually the desired improvements will have been secured without the city feeling the expense to any great extent.

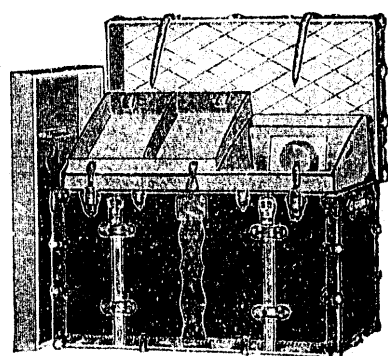

### Artistic Driveway Planned.

The proposed entrance to the park would leave the South Main street road at a point 215 feet south of Frank Kiltner's residence and would not run directly east, but would wind around in a northeasterly direction, adding to the artistic effect. If the proposed excavations were made the park lake would have a total measurement of one and one-eighth of a mile in length.

### A Problem of Finances.

The gentlemen who have thought out the plan have certainly thought wisely and well for it is a plan broad in its scope, opening up great possibilities and it is withal one worthy of the most careful consideration. The features outlined are all desirable and it is likely that the whole proposition before it is decided will simmer down to a matter of finances. It will be necessary to get full plans and specifications for the work and then to ascertain with reasonable exactness what the total cost of the work will be. No citizen who takes pride in the present and future of the city can consider the proposition without feeling a deep interest in it and the council will certainly have a plan and proposition which can profitably looked into with interest and care.

Read the Journal; 10c a week.

Amex One—Team

Kewanee, June 29.—(Special)—  
In one of the most spectacular pitch-  
ing battles ever waged here, Ke-  
wanee won today in the thirteenth  
inning. Akers and Kench were in  
fine form and with excellent support  
kept the huge crowd on its toes dur-  
ing the long struggle. In the 13th  
inning, which proved so fatal to the  
visitors, Johnson reached first on  
an error by Hulse. Callahan sac-  
rificed, allowing Johnson to reach  
second, and touched the third sack  
when Lewis was out on a fly. Clair  
knocked a hard ball to Berte and  
through his error Johnson was able  
to score. Only one of the visitors  
was able to reach third during the  
entire game. Thomas looked rather  
dark for Kewanee in the 12th when  
Rodgers, of the visitors, hit a ter-  
rific ball to center field, which Cal-  
lahan grabbed in a sensational run-  
ning catch. Comments for the locals  
had a busy day in the garden, having  
seven chances without an error. Lit-  
tlejohn for the visitors also played  
star ball, accepting eight chances  
without a bobbie. Jacksonville fig-  
ured in a couple of fast double plays.

**WAS A PRETTY HOME WEDDING**

Beauty and Simplicity Characterizes Nuptials of Mr. Ralph Moore Goltra to Miss Gertrude Rawlings—Miss Lena Piepenbring Becomes Bride of William L. Grassly.

Beauty and simplicity marked the wedding of Mr. Ralph Moore Goltra of Los Angeles, Cal., and Miss Gertrude Rawlings, which took place at high noon, Tuesday, at the home of the bride's parents, Mr. and Mrs. Robert S. Rawlings, four miles southeast of Woodson, Rev. G. W. Miller, pastor of the Christian church of Woodson, officiating.

The Rawlings home never looked prettier, decorated artistically with white honeysuckles. They were arranged in the form of a bank in the front parlor, where the ceremony took place, before only the immediate relatives and friends of the contracting parties. The bride was dressed in a blue satin directoire gown, trimmed with handsome lace and carried a huge bouquet of bride's roses. The bride's maid was her sister, Miss Adelaide Rawlings, who wore a pink silk directoire gown and carried pink carnations. The best man was Mr. W. H. Graham of Kansas City. The bridal party entered the room while the wedding march from Lohengrin was played by Miss Lena Taylor.

After the ceremony a sumptuous wedding dinner was served, the dining room being decorated in a pleasing manner with pink carnations. A large number of elegant wedding presents were on display, evidencing the esteem in which the young people are held.

The bride is a young lady of charming personality and popular among her girl friends. She received her education at the public schools of Woodson and at the Illinois Woman's college.

The groom is the son of Mr. and Mrs. John C. Goltra of Los Angeles, Cal., former Jacksonville residents, and a nephew of Edward F. Goltra of St. Louis. He was a student at one time of Whipple academy and is now engaged in the brokerage business.

Mr. and Mrs. Goltra expect to be at home to their friends at 1036 West 29th street, Los Angeles, Cal., after July 14. They will have the sincere wishes of their many admiring friends for a happy wedded life.

Grassly-Piepenbring.  
William L. Grassly and Miss Clara W. Piepenbring were quietly married Tuesday evening by Dr. A. B. Morey, pastor of State Street Presbyterian church, the ceremony taking place at his residence at 8 o'clock.

The bride for some time was in the millinery department of Herman's store and has been head trimmer at Henry Smith's on West State street. The groom is the son of Mrs. Elizabeth Grassly of 1246 South Main street. He is a graduate of Northwestern university in the pharmacy department and is employed in Gilbert's pharmacy. Both parties are well known and highly respected, and their host of friends will wish them an abundance of happiness in their new life.

Mr. and Mrs. Grassly left over the Wabash at 8:55, where they were given a merry send off by a number of members of the Knights of Pythias, who found out that they were to leave on that train. After a two weeks' honeymoon at Denver and Colorado Springs, Colo., they will be at home to their friends at 218 1/2 South Main street.

Campbell-Renz.  
A marriage license was issued yesterday in St. Louis to Forrest L. Campbell of Jacksonville and Miss Millie L. Renz of Tallula. The name of the groom does not appear in the city directory.

Celebrate with Ledford's fireworks  
FOR SALE—Cracked eggs. Swift & Co.

Juliet Got the Light.  
At a small seaport town a star actress of the third magnitude appeared as Juliet.

"I cannot do justice to myself," she said to the manager, "if I do not have a limelight thrown on me when I appear at the balcony."

"We ain't got no limelight, miss, but I think we could get you a ship's blue light," replied the obliging manager, and to this the lady agreed.

The lad who went to the shop to buy the blue light brought back a signal rocket, which was given to him by mistake. The prompter took the rocket in good faith.

Romeo—He jests at scars who never felt a wound.  
(Juliet appears. Prompter lights a match.)

"But, soft! What light through yonder window breaks?"  
(This was the match lighting the fuse.)

"Arise, fair sun!"  
The sun, or, rather, the rocket, did rise with a terrific hiss. Juliet was knocked off the balcony, the fly borders were set on fire, and the theater was filled with a sulphurous smoke, while the audience, which was fortunately a small one, made a stampede to the doors.

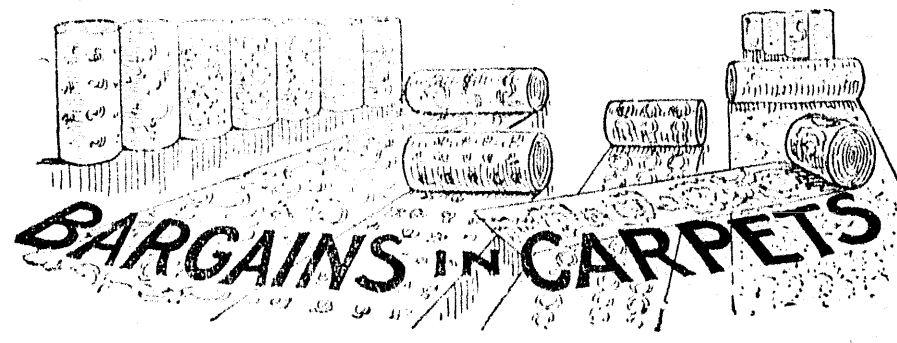

Since then "Romeo and Juliet" has always been looked upon in that town as a dramatic work that could not be witnessed without personal danger.—London Express.

## HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which despite the most favorable environment of soil, sunshine and water atmosphere, seemed never to achieve a healthy growth?

A ton of manure will not help a plant that has a canker eating out its heart.

You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vasoline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out.

Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

Sold by leading druggists. Send 10c stamps for sample to The Herpicide Co., Detroit, Mich.

## GETTING READY FOR GOLFING

Central Illinois Association's Tourney Promises to be Very Interesting.

Decatur Review: At the Country Club the atmosphere is heavy with plans for the fast approaching meeting of the Central Illinois Golf and Tennis Association here the week of July 19. From present plans it seems pretty safe to predict the visitors will be entertained as never before. Every effort will be made to have their stay here enjoyable and gay in every way. Already the local club has gone to great expense in making some long needed improvements in the house and grounds and more money will be spent, without stint, along these lines. But the actual entertainment and comfort of the visiting scores will call for an expenditure of much more. The real gayeties will be at nights. There will be music about all the time, and it is probable one night will be taken up with a band concert. There will be a vaudeville entertainment another night, the program probably being from a temporary platform to be erected outdoors facing the club house porch. It is hoped that talent from the clubs that are members of the association will provide the amusement. As early as the last of the week before the tournament the golfers are expected to arrive, although the actual tourney will not begin until Tuesday, July 20. Most of the players will be here Monday, and there will be a stag party that night. There will be numerous affairs for the women.

It adds spice to the dreary life, encourages the human heart, lifts the soul out of despair and makes new life and happiness. That's what Hollister's Rocky Mountain Tea does. 35 cents, Tea or Tablets.

## CAN'T RECOVER

International Text Book Company Has no Standing Here.

Springfield Register.—The appellate court for the third district of Illinois handed down an opinion yesterday that the International Text Book Company of Scranton, Pa., is a foreign corporation doing business under the laws of the state because it gives instruction to pupils in the state that it is not only subject to a fine for failure to comply with the laws of the state regarding corporations by reason of its failure to have a public office in the state at which to transact its business, but that it is inhibited from collecting fees from its pupils in the state. The appellate court affirms the judgment of the circuit court of Marion county in which the International Text Book company had sought to recover \$48.50 from W. A. Mueller being the balance due for instruction, and which he refused to pay.

## WARNING! WARNING!

Persons prematurely celebrating the 4th of July (which will be observed this year on Monday, the 5th) will be arrested and prosecuted under the city ordinance against discharging firearms, firecrackers, etc., in the city.

Geo. P. Davis,  
Chief of Police.

## YOUTH ENDS LIFE

Pittsfield, Ill., June 28.—Irvin B. Venable of Pleasant Hill ended his life Sunday at noon by drinking a poison. He was only sixteen years of age and had been melancholy for several months. A few months ago he had a fight with a companion and a short time after his antagonist died, but not as a result of the combat. The fact of the death of his antagonist proved on the mind of the youth so that it is believed that he became insane. The inquest was held by Deputy Coroner W. A. Reed of this city. The funeral was held Monday afternoon.

## FROM OCEAN TO OCEAN

Journey Can Now be Made Under Protection of Block Signal.

The current issue of the Railway Age Gazette calls attention to the fact that it is now possible to make a rail journey between the Atlantic and Pacific oceans entirely under the protection of block signals and almost entirely under the protection of automatic electric signals.

This journey is 3,245 miles, which can be made with the safeguard of the most efficient block signal system yet invented, that of the automatic electric. This system, as its name indicates, does not depend upon human agency for its efficiency, but protects against collision absolutely, provided the human agency in the locomotive cab observes and obeys the electric agent placed for the guidance of the engine crews. Within a very short time all of the journey can be made under the protection of the automatic electric system, and the gaps are so insignificant when compared with the entire distance that they are scarcely worth mentioning.

The last big gap in the electric system was closed recently by the Northwestern when it installed signals between Boone and Logan, Ia., a distance of 117 miles. The journey described begins at the eastern terminus of the Lehigh Valley, which has automatic block signals all the way to Buffalo, a distance of 448 miles and covering its double track. From Buffalo the journey would be continued over the Lake Shore, which has automatic block signals all the way to Chicago, with the exception of four and one-half miles of track within the city limits of Chicago, where the track elevation is in progress.

From Chicago the journey is continued over the Northwestern, whose twin tracks to Omaha, a distance of 487 miles, are protected by automatic block signals. From Omaha or Council Bluffs to Ogden, a distance of 1003 miles, the journey is over the Union Pacific, every bit of the distance being protected by automatic signals. From Ogden to the Oakland Pier the Southern Pacific has the exception of six miles across Salt Lake, where the salt spray will not permit uninterrupted working of the signals; twenty miles in Nevada, ninety-four miles in the Sierra Nevada mountains, where the electric train staff system is used, and one mile across the Sacramento river, where trains are carried by boat. The length of the journey from Ogden is 782 miles.

Twenty-five thousand wornout or antiquated freight cars of all kinds are to be destroyed by the Pennsylvania system during the coming year to make way for more modern equipment. This is in accordance with the policy of the Pennsylvania management to equip all of its lines as fast as possible with steel under-frame cars of a size and capacity to meet the demands of present day transportation.

The total original cost of the 25,000 cars to be scrapped amounts to approximately \$17,000,000, or enough to pay the freight on 1,150,000 tons of merchandise from New York to Chicago at the first class rate of 75c a hundred pounds.

The cars to be scrapped will include all of the old wooden type of 40,000 capacity or less. They will be replaced with the latest type of new cars of 100,000 pounds capacity because it is regarded as more economical to buy new equipment than to continue to repair small old cars.

Life of Car Twenty Years. While the total amount of investment which is thus to be wiped out appears to be large, it is not so surprising in view of the fact that the annual depreciation of equipment from ordinary wear and tear averages nearly half of the amount named. The average life of a freight car is twenty years and as the Pennsylvania system owns 250,000 cars the number torn down each year and replaced with new equipment amounts to 12,500 cars.

Two years ago the Pennsylvania scrapped 100,000 of its old cars of 30,000 capacity or less almost at one time. The cars to be replaced this year will be removed from service gradually as new cars are received from the builders. The iron and brass work in each car will be removed and converted into scrap and in many cases the trucks can be used under other cars, so that the amount of salvage from a car will amount in many cases to \$200.

The new cars will cost about \$1,000 each, as compared with \$700, the cost of the older equipment.

## WOODMEN NOTICE.

All members of Unity Grove Camp No. 132 are requested to meet at the hall Wednesday afternoon at 3 o'clock to attend the funeral of our deceased neighbor, John T. Anderson. All other Woodmen of the city are invited to attend.

W. J. Brooks, Venerable Consul.

L. Piepenbring, Clerk.

The sun shines brighter; skies are bluer, and a feeling of youth and strength creeps over the whole body. Take Hollister's Rocky Mountain Tea, the greatest building up and health giving remedy ever offered. 35 cents, Tea or Tablets.  
Armstrong's Drug Store.

## Steel Grain Bin

able, Waterproof, Rat and Mice Proof.

It can be used for receiving the grain from the threshing machine. It is practical and should appeal to the farmer that raises small grain or grass seeds. It is made in sizes from 180 bu. to 1,000 bu. See it.

The New and the New on The Lash

## NO TIP ORDER POSTED.

Springfield Journal: After a week's delay, the order from the civil service commission prohibiting policemen from accepting fees, tips or any division of costs from magistrates or justices of the peace, was posted at headquarters yesterday.

Objections said to have been raised by Commissioner Cook are said to be responsible for the elimination of the portion of the order which required city cases to be taken before the police magistrate. The official copy posted at headquarters shows this portion erased. The order in its modified form is as follows:

"It is hereby ordered that hereafter no policeman or officer shall directly or indirectly demand, ask or in any manner receive any fee from any person or persons booking cases to any police magistrate or justice of the peace.

"No police magistrate or justice of the peace shall directly or indirectly pay to any police officer any fee, compensation or any valuable thing for looking any cases to his office.

## DOCTOR'S PRESCRIPTIONS.

It has been proved over and over again that the doctors of this country freely prescribe proprietary medicines in Latin for their patients until they are advertised to the public after which time they consider it a duty to immediately condemn the very same medicine, not because the preparation is any less valuable, but because it is not "ethical" to prescribe an advertised medicine. There are, however, many physicians of recognized standing broad-minded and successful enough to continue to prescribe such standard remedies as Lydia E. Pinkham's Vegetable Compound, which they know to be good.

## ATTENTION OLD SOLDIERS.

All members of the G. A. R. are all old soldiers are requested to meet at the late residence of Comrade T. Anderson, Wednesday, June 30, at 3:30 p. m., to attend the funeral services.

L. R. Penfield, Com.

## MARKED FOR THE REAPER.

About three years ago Mrs. I. Hetkes of 819 Kirkham street, Oakland, Cal., called at our office with a girl thirteen years old, the latter weak and listless. She stated that she had lost a daughter through kidney disease and the doctors now told her this one was in the same fix and that she could not live but a short while.

The mother was nearly distracted. We told her that kidney disease was really inflammation of the kidney and that it was in fact incurable under the old diuretics, all of which were kidney excitants, but that an emollient for kidney inflammation had been discovered and that the child would probably recover. The mother took the treatment with her. We skip three years.

A few months ago Mrs. Hetkes called with a beautiful young girl who was the very picture of health. She introduced her as the dying patient of three years ago, and told us to refer anybody in the world to her. She stated the recovery was complete about the eleventh week.

For the only emollient for inflammation of the kidneys, the world has ever seen, ask for Fenton's Renal Compound. Literature mailed free.

## GRAVEL SPRINGS WATER

## The Purest Water in the World

Highest Award World's Fair St. Louis, 1904

### Seven Reasons Why YOU Should Drink ONLY Gravel Springs Water

1. It is pure, life-giving spring water delivered pure.
2. It is soft, clear as crystal, and most pleasant tasting.
3. It is both a diuretic and a gentle aperient water.
4. It is of great benefit to the most delicate stomach.
5. It is charged with its own gas, and when stored away for a length of time it does not deteriorate.
6. It is packed in modern and sanitary packages and within reach of all in price.
7. It contains less than 20 grains mineral salts to the U. S. gallon, all of which aids digestion.

Gravel Springs Ginger Ale and all Beverages are Absolutely Pure and have for their Body the Natural GRAVEL SPRINGS WATER.

# Money

The price of these farms run from \$20 per acre up and they will be sold on reasonable terms. At this time the crops now growing on many of these farms will more than pay for the land that they are grown on. Therefore no farmer or investor can do better than to buy his choice of them. I will be pleased to furnish description of these farms, for we sell to nearly every one who goes over them with us. We arrange for trips any day in the week from Jacksonville by Kansas City. Recently we have sold thousands of acres to business men of Galesburg and also to others.

### CITY AND COUNTY

Charles Reid, employed at Ethne Bros., is ill at his home.

John White of Murrayville was a business visitor in the city yesterday.

W. P. Piercy for many years a resident of Waverly and a constable there, is making a visit with Jacksonville friends.

Miss Margaret Morrissey left yesterday for Montana where she will meet her uncle and aunt and proceed to the coast for a visit.

Miss Anna Warth and niece, Miss Edith Sawyer of Columbia, Mo., are guests at the home of Dr. Charles Sawyer and Miss Helen Sawyer on South Duval street.

Bernard Gause was in Varden on business yesterday and returned by way of Springfield. While there he visited a number of the city parks.

Great fire fireworks. Ledford's

AREZVILLE WILL CELEBRATE.  
Arezville is planning a big celebration for Independence day, to be held Saturday, July 3. A program has been arranged and the opening address will be given at 10 a. m. Mayor H. H. Baucroft will speak in the afternoon. A baseball game and fireworks will be on the list of attractions.

VASES ORDERED.  
Nichols park commissioners have purchased terra cotta vases measuring three feet in diameter to surround the twenty-four pedestals which were built at the park some time since. The great vases filled with flowers will certainly present a charming effect.

FOR BENEFIT OF NEW CHURCH.  
A delightful musicale was given by Mrs. Joseph Estacade at her home on West North street Tuesday evening for the benefit of the new Northminster church. A large crowd was present and quite a neat sum was realized.

### Death Record

Covey.

The funeral of John Burney Covey was held Tuesday afternoon at 1 o'clock in the Christian church at Woodson. The services were in charge of Rev. Mr. Arnold and music was furnished by the church choir. There were many beautiful floral tokens, among which was a pillow from the Woodman lodge, to which order the deceased belonged. These were kindly cared for by Misses Kate Grimsley and Cline and A. T. Sanders. The bearers were William McCutley, John Sheehan, Douglas Rigg, E. M. Whitlock, Clyde Sanders and Frank Kohl. The remains were taken to Nortonville, where they were interred in the Nortonville cemetery.

Mrs. George W. Chinn died at the home of her mother in White Hall Saturday, June 26, and the funeral was held at 3 o'clock Tuesday afternoon. Mrs. Tracy A. Chapin of North Caldwell street, this city, is a sister of the deceased. Mrs. Chinn had been in failing health for the past three or four years and the last year was one of great suffering.

FOR BROOKLYN CHURCH.  
The members of the Men's Bible class of Brooklyn Sunday school held a meeting at the church last evening to discuss plans relative to the work of the men in the church and school. They are anxious to have a great share in the affairs of the church and this was clearly proved by the fact that it was decided at the meeting last night that the men of the church should give \$1000 per July 15. An executive committee was appointed and various sub-committees will be appointed later. The supper will be given principally for the purpose of promoting good fellowship and sociability. The affair of course will be open to the public and the responsibility and work will fall chiefly on the men, who are capable of carrying it to a successful issue.

Newest in fireworks. Ledford's.

The pupils of Miss Schreeman will give a piano recital Thursday evening, July 1, at 8 o'clock in the music rooms of the W. T. Brown Piano Co. The public is cordially invited to attend.

### INDEPENDENCE DAY

Jacksonville Will Hold Celebration at Nichols Park—Fans Will Witness Double Header at Ball Park.

Already people are laying plans for the celebration of the glorious Fourth. Signs are hanging in the windows of grocery stores and other places of business announcing that their doors will be closed July 5 and sure arrangements will be made whereby all places of business can close for the day so as to permit everyone to celebrate. It will not be necessary for the people of Jacksonville to go to another city to celebrate, for the celebration which will take place at Nichols park Monday, the 5th, will furnish entertainment for everybody. Jeffries' band will furnish music throughout the day and the Osborne-Drake orchestra will play for the dancing in the pavilion, which will be free to all. Day fireworks will be exhibited and at night there will be a grand display of fire wonders. Moving pictures will be shown free and rowing and fishing will contribute to the number of amusement features which the committee has provided. No doubt a great number will take their dinners and suppers and pass the entire day out where they can get full benefit of the refreshing breeze and the excellent shade which the park affords.

In the afternoon a double header will be played at West Side park between Jacksonville and Waterloo. This will certainly draw a large crowd. The day therefore will be well celebrated in Jacksonville.

Big fireworks offering. Ledford's.

### HOUSE FLIES DANGEROUS.

This is "fly time," which at it has been aptly stated, "is more to be feared than war times," says the state board of health bulletin for the current month.

Kill the fly. Do not let the fly kill you—or yours.

Screen your windows; screen your doors. This is the first step in the warfare against the flies. Then kill the fly that gets into your house. Do this by means of fly paper, or one of the harmless-to-man fly poisons found in the stores, or by means of the wire fly killers offered for sale. Flies, attracted by the savory odor of cooking, will gather at the kitchen door, and some will get in whenever the door is opened.

Kill the fly that gets into your house. Keep out the fly that tries to get in.

The filthy fly which breeds in filth and wallows in filth, and never wipes its feet, will carry into your and onto your food and drink not only the filth from privy vaults, garbage heaps and other decaying matter, but also the germs of disease (such as consumption, typhoid fever, and diphtheria).

Flies caught in house of typhoid fever patients have been found to have their feet and stomachs swarming with typhoid fever germs. A single flyspeck may contain three thousand germs.

The germs of consumption which may be found every place where the consumptive spits, may also be easily carried by the fly, both on his feet and on his body. Much of the typhoid fever in the army camps during the Spanish-American war, was due to flies.

The germ and their poisons which cause the disease must be drawn to the surface of the skin and destroyed.

Zemo, a scientific preparation for external use, will do this and will positively cure Eczema, Pimples, Dandruff and every form of skin or scalp disease. See photos of many remarkable cures and show case or window display at Armstrongs drug store. Ask for samples.

### EPWORTH LEAGUERS AT WHITEHALL

Young People's Organization of Methodist Churches Have Auspicious Opening at Convention Yesterday.

The Epworth league convention yesterday at White Hall had a very favorable opening day and everything bids to make it one of the greatest convention ever held in the district. By noon ninety-four delegates had registered and all the district officers were present. In the afternoon the junior department and the social department were the subjects for discussion. John Phillips of this city gave a talk on "The League and General Culture," and Rev. A. A. White, district superintendent, conducted the sacramental service. At the evening session Rev. Don W. Nichols of Jacksonville delivered the principal address, having for his subject "The Failure of Missions." The White Hall orchestra furnished music and with the splendid addresses the delegates are enjoying a great meeting. Several representatives from Grace, Centenary and Brooklyn chapters are in attendance.

### RETURNS FROM PROFITABLE TRIP.

Miss Alice Twitchell, superintendent of the Passavant hospital, has returned from Minneapolis, where she attended the Association of Training School Superintendents' convention, of which she is a member, and the meeting of the Associated Alumni, to which she was a delegate.

While away she visited the hospital of the Drs. Mayo at Rochester, Minn., and the day of her visit twenty-eight surgical operations were performed. There are thirty physicians and surgeons at this hospital beside the Drs. Mayo and the nurses.

### ANNOUNCEMENT.

I am a candidate for judge of the supreme court, and hope that the people of the fourth supreme judicial district will see fit to give my candidacy favorable consideration. With a view of securing the nomination for that office on the Republican ticket I respectfully solicit the aid, assistance and encouragement of the voters of that district.

Very respectfully yours,  
John E. Wall.
